# Young's Mid-Fall BARGAINS

The cheapest price by THIRTY to FIFTY per cent lining out stock has ever been offered to the trade. These prices as listed are just fifty per cent lower than you have ever paid me before. Besides I offer you, prior to December 1st

## 30 Percent Additional Discount for one-half cash with order

### An Apology and Explanation to My Competitors and Customers

It is not fair competition when one firm steps out and undersells his competitors thirty to fifty percent as I am doing at the present time, and I would not offer this stock at this price, which is below cost of production, if I were not forced to do so. I have been to considerable extra expense this year, also invested several thousand dollars in a branch nursery in Western North Carolina, which has placed me in a very embarrassing financial condition, making it absolutely necessary that I raise several thousand dollars in a short time. So to be sure of raising this money from sales of my stock I am offering you the greatest opportunity you will probably ever have to secure lining out stock of the highest quality at unheard of low prices. I have offered big cash discounts in the past, but the list prices were thirty to fifty percent higher than the prices in this list. Compare these prices with any

reliable firm and you will be surprised at the big saving you will make by sending your order in before the time limit on this offer expires, and I sincerely hope I will never again be compelled to offer my stock at such low figures.

I wish to assure you that each and every order will have my personal attention and that the same care will be given in digging, grading and packing as I have always given in the past. Remember, my packing has been proven the best in America by a standing offer of \$500 over a period of four years to anyone who could show me a better method of packing.

ROBERT C. YOUNG,  
Greensboro, N. C.

P. S. Write for special prices on lots of 5000 or over.

#### Abies, The Firs

##### ABIES CONCOLOR (White Fir)

Tree to 120 feet tall. Hardy in southern Canada. Bluish-green leaves and handsome pyramidal growth. One of the most successful of American Firs for cultivation, withstanding heat and drought well. Makes a magnificent lawn specimen.

100	1000
1 yr. beds	2.00 18.00

##### ABIES NORDMANNIANA (Nordmann's Fir)

A pyramidal tree with small deep needles, dark green on surface with silvery lines on under side. The finest of all the Firs, very scarce.

2 yr. beds 2 in.	7.00 60.00
1 yr.	5.00 40.00

##### ABIES PECTINATA

Foliage dark green above, silvery white below. This makes up into a fine tree for lawn planting, growing to a height of 100 feet.

1 yr.	1.75 15.00
-------	------------

#### Buxus, The Boxwood

##### BUXUS SEMPERVIRENS ARBORESCENS (Tree Boxwood)

An evergreen shrub, with close-growing branches, covered with dark shining green foliage; stands pruning very well, thrives in almost any well-drained soil. It is a desirable plant for formal use.

4 yr. trans. 12-18 in.	26.00 200.00
4 yr. trans. 10-12 in.	17.50 150.00
4 yr. trans. 8-10 in.	10.00 87.50

2 yr. rooted cuttings 2-4 in.	3.00 25.00

#### Cedrus, The Cedars

##### CEDRUS ATLANTICA (Atlas Cedar)

A large majestic pyramidal tree with silvery green foliage.

2 yr. trans. 4-6 in.	8.00 75.00
2 yr. 8-10 in.	10.50 100.00
2 yr. 6-8 in.	9.00 87.50
1 yr. 2-4 in.	4.00 37.50

##### CEDRUS DEODARA (Deodar)

Feather-like foliage considered most beautiful ornamental cedar for the Atlantic, Southern and Pacific Coast States. Deodar is a Hindu word, meaning Tree of the Gods. Almost unrivalled in the grandeur of its pendulous and litha branches.

2 yr. trans. 8-10 in.	15.00 140.00
2 yr. trans. 6-8 in.	10.50 100.00
1 yr. beds 4-6 in.	6.00 50.00
1 yr. beds 2-4 in.	4.00 30.00

#### CEDRUS LIBANI (Cedar of Lebanon)

When small the tree is of conical, regularly shaped outline with wide spreading branches, but as the tree increases in age it assumes a round open head, a change from the beautiful to the picturesque. Aside from its ornamental value it is of peculiar interest for its scriptural and historical associations. It is said to be the most hardy of the Cedrus family.

3 yr. beds 6-8 in.	4.00 35.00
2 yr. beds 4-6 in.	2.50 20.00

##### CHAMAECYPARIS PISIFERA (Sawara Retinospora)

Foliage bright-green somewhat pendulous. This is a very valuable and hardy form, and is not commonly grown.

3 yr. beds 4-6 in.	7.00 62.50
3 yr. beds 6-8 in.	6.00 40.00
1 yr. 2-4 in.	3.00 25.00

#### CRYPTOMERIA

##### CRYPTOMERIA JAPONICA (Common Cryptomeria)

A great favorite in Japan, attains a height of 100 or more feet. Of graceful and rapid growth. Regular, pyramidal habit, the foliage somewhat resembles that of the Norfolk Island Pine; hardy in New England in sheltered position.

3 yr. trans. 8-10 in.	8.00 75.00
3 yr. beds 8-10 in.	6.00 50.00
2 yr. 6-8 in.	6.00 40.00

1 yr. 2-4 in.	2.50 20.00

#### Cupressus, The Cypress

##### CUPRESSUS ARIZONICA (Arizona Cypress)

Attractive for its silvery blue color, grown from seed. Beautiful blue or glaucous pyramidal tree, horizontal branchlets, dense foliage. Attains 40 feet, making perfectly shaped specimen.

100	1000
2 yr. 6-8 in.	3.50 30.00
2 yr. 4-6 in.	3.00 25.00
1 yr. 4-6 in.	2.50 20.00

##### CUPRESSUS SEMPERVIRENS (Italian Cypress)

This is a tall, slender evergreen, straight and columnar. Its dark green shall rise above other shrubbery, gives a varied sky line. It is equally at home in small grounds or large ones, with the cottage or the larger house. During a long life, it reaches great height. This is the tree which so many American tourists in Italy become enthusiastic about.

2 yr. beds 4-6 in.	3.50 30.00
2 yr. beds 6-8 in.	5.00 40.00

#### Euonymus

##### EUONYMUS BUNGEANUS (Winterberry Euonymus)

1 yr. 4-0 in.

1 yr. 4-0 in.	3.50
---------------	------

##### EUONYMUS JAPONICA (Evergreen B.)

Leaves dark, shining green. A fine plant for the lawn. Succeeds in almost any situation.

2 yr. trans. 6-8 in.	8.50 75.00
----------------------	------------

##### EUONYMUS SIEBOLDIANA

1 yr. 4-0 in.	3.50
---------------	------

#### Juniperus

##### JUNIPERUS SCOPULORUM

1 yr. 2-4 in.

1 yr. 2-4 in.	8.00 75.00
---------------	------------

##### JUNIPERUS VIRGINIANA (Red Cedar)

An attractive, well known tree. Pyramidal shape, very hardy. Covered with silvery blue berries in season. Good in background or for shade. Can be kept low by occasional shearing and makes a beautiful shrub for a foundation or general planting.

2 yr. 4-0 in.	4.50 40.00
---------------	------------

#### Larix, The Larch

##### LARIX DAHURICA (Dahurian Larch)

Large rapid-growing species from Eastern Siberia; up to 80 feet.

2 yr. 4-6 in.	6.00 50.00
---------------	------------

##### LARIX EUROPAEA (European Larch)

Large tree of fine pyramidal growth.

2 yr. 8-10 in.	7.00 60.00
----------------	------------

##### LARIX LEPTOLEPIS (Japanese Larch)

Tree to 80 feet high and very handsome as a lawn specimen.

2 yr. 4-6 in.	6.00 50.00
---------------	------------

##### LARIX OCCIDENTALIS (Western Larch)

Horizontal branches forming a narrow pyramidal head; leaves pale green.

1 yr.	4.00 37.50
-------	------------

#### Ligustrum, The Privets

##### LIGUSTRUM JAPONICUM (Japanese Privet)

A very handsome broad-leaved variety with large, dark-green leaves. Flowers produced in panicles followed by purple berries which are retained during the winter, giving the plant a very pleasing appearance. This plant can be grown into a small tree, can also be trimmed into pyramidal, standard or other forms. Ultimate height, 20 to 30 feet.

100	1000
2 yr. beds 12-18 in.	5.00 45.00
2 yr. beds 8-12 in.	3.50 30.00
2 yr. beds 6-8 in.	1.75 20.00
2 yr. beds 4-6 in.	1.50 10.00

##### LIGUSTRUM JAPONICUM AUREA (from aned)

Ligustrum japonicum, but with leaves deeply margined with golden yellow. Very attractive in plantings used in combination with green and silver leaved forms. Ultimate height 8 to 10 feet.

2 yr. 8-10 in.	4.00 37.50
2 yr. 6-8 in.	3.50 30.00

##### LIGUSTRUM LUCIDUM (Glossy Privet)

A beautiful form of Japanese Privet. Leaves large, thick, ovate, lanceolate of a very dark shining green. Large heads of white flowers produced in May, followed by black berries, which are retained throughout the winter. Hardy at Baltimore. A most desirable variety. Attains a height of 20 feet.

2 yr. beds 8-10 in.	7.00 60.00
2 yr. beds 6-8 in.	5.00 45.00
2 yr. 4-0 in.	3.50 30.00
1 yr. 2-4 in.	2.50 20.00

##### LIGUSTRUM NEPALENSE (Nepal Privet)

Medium size, dark green, glossy leaves; uniform, compact spreading growth. A very attractive plant, essential to landscape planting in masses, banking or groups. Fills space between tall, rank growing shrubs and the very low growing types.

2 yr. 8-10 in.	4.50 40.00
2 yr. 6-8 in.	3.50 30.00
1 yr. 4-6 in.	3.00 25.00
1 yr. 2-4 in.	2.50 20.00

#### MAGNOLIA

##### MAGNOLIA GRANDIFLORA (Southern Magnolia)

This is the grandest of all our native broad-leaved evergreen trees. It is a native of the middle sections of the Southern States, and succeeds best in a rich soil. Nothing more conspicuous can be seen among evergreens where its large, white flowers are fully expanded. Their period of blooming begins the middle of April and lasts until August. Hardy at Philadelphia.

1 yr. 4 in.	6.00 50.00
1 yr. 2-4 in.	4.50 40.00

##### MAGNOLIA GLAUCA

1 yr. 4 in.	6.00 50.00
-------------	------------

Nandina		
NANDINA DOMESTICA (Nandina)		
The delicate foliage of the Nandina is a brilliant green of gorgeous orange red of crimson color in winter. It is deer and rocky, being one of the dwarf shrubs of Japan. The leaves are rich red when young, dark green at maturity, and boldly colored in winter. Nandina thrives well in any soil, but is best in a rich, moist soil. In autumn it is covered with snowy clusters of small red berries. This plant is one of the three plants most used in the better class of landscape work.

2 yr. 4-6 in.	5.00	45.00
1 yr. 2-4 in.	4.00	37.50

Picea, The Spruces		
PICEA ALBA		
Described by Bailey, the eminent horticulturist, as "A native of the Northern part of America." It is the most common of the spruces, due to its light, feathery green foliage, slightly tinged with blue.		
2 yr. 2 in.	3.50	30.00
1 yr.	2.50	20.00

PICEA EXCELSA (Norway Spruce)		
For many years Norway Spruce has been highly appreciated because of its rapid growth, its brilliant, and its heavy, narrow, deep green foliage. Some of the finest old hedges are of Norway Spruce, as the trees are readily pruned to any desired height. On farms and around homes all over the country Norway Spruce wind-breakers are giving substantial protection to stock and buildings. Norway Spruce is a tall, picturesque, and hardy tree, graceful in all its forms, and well adapted to planting over a wide range of territory.		
4 yr. twice trans. 8-10 in.	6.00	50.00
4 yr. twice trans. 6-8 in.	5.00	45.00

2 yr. beds 4-6 in.	2.00	15.00
1 yr. 2-4 in.	1.50	10.00

PICEA ORIENTALIS (Oriental Spruce)		
Tree to 120 feet with ascending, spreading branches and somewhat pendulous branchlets; young branches brown, pubescent; leaves thick, obtuse, dark green and glossy, crowded and more or less appressed to the branchlets. Very dense.		
2 yr. beds 2-4 in.	5.00	45.00

PICEA PUNGENS (Colorado Spruce)		
Tree 80 to 100 feet or more. Has dense tree of symmetrical habit with light colored foliage. Very popular as a lawn tree and for dry climates. One of the best of all Spruces.		
3 yr. trans. 4-6 in.	7.00	60.00
3 yr. beds 4-6 in.	4.50	40.00
2 yr. beds 4-6 in.	3.00	25.00
2 yr. 2 in.	2.00	18.00

Pinus, The Pines		
PINUS AUSTRIACA (Austrian Pine)		
Tree rich, glossy, dark green foliage. Well adapted for planting in cities, as it is highly resistant to smoke. A fast growing dwarf tree of wonderful adaptability.		
3 yr. 4-6 in.	3.50	30.00
1 yr. 4-6 in.	2.50	20.00

PINUS DENSIFLORA (Japanese Red Pine)		
Tree to 100 feet tall, in cultivation much less. Endemic ornamental Japanese Pine of rapid growth when young, very picturesque when older.		
1 yr.	1.50	12.50

PINUS EDULIS (Nut Pine)		
Small tree 10 to 20 feet in height with horizontal branches. Very bushy. Foliage dark green. Hardy north as far as Massachusetts.		
1 yr. 2-4 in.	6.00	50.00

PINUS FLEXILIS (Lamb Pine)		
Tree to 60 feet or over. A hardy, unusually low pine with spreading branches densely clothed with dark green leaves. Adapted for planting on rocky slopes.		
2 yr. 4-6 in.	7.00	65.00

PINUS MONTANA (Swiss Mountain Pine)		
Very variable in habit; usually low, often prostrate shrub, sometimes pyramidal tree to 40 feet tall. Usually hardy, low shrub with bright green foliage.		
2 yr. beds 4-6 in.	4.00	35.00
2 yr. beds 2-4 in.	2.50	20.00

PINUS MONTANA MUGHUS		
Perhaps the most useful of the dwarf pines for foundation planting. Very shrubby and low.		
2 yr. 2-4 in.	2.50	20.00

PINUS MUGHUS (Mugbo Pine)		
Most interesting evergreen forming a compact, rounded, symmetrical dome of bright green foliage; needles are sharp and a rich green color. Succeder to any soil, and is invaluable for planting in a dry rocky location.		
2 yr. 4 in.	3.50	30.00
2 yr. 2-4 in.	2.50	20.00

PINUS PINASTER (Cluster Pine)		
Tree to 100 feet, with spreading or sometimes pendulous branches forming a pyramidal head; branchlets bright reddish brown; buds oblong-oval brown, not resinous; leaves stiff, acute, bristly twisted, glaucous green.		
2 yr. 10-12 in.	3.50	30.00

PINUS PINEA (Italian Stone Pine)		
Compact and symmetrical when young, and picturesque when older, with a broad parasol-like head. Hardy only in California and the South.		
2 yr. 2-4 in.	3.00	25.00

PINUS PONDEROSA (Western Yellow Pine)		
Tree occasionally to 100 feet tall, probably 60 to 75 feet in cultivation. Important timber tree somewhat resembling Austrian Pine. Very fine ornamental.		
100	1000	
2 yr. beds 2-4 in.	2.50	20.00

PINUS SYLVESTRIS (Scotch Pine)		
A splendid tree of broad pyramidal habit, rather open, with gracefully awayed, lustrous and needles of medium length of a bright green color. Must not be confused with the ultimate height 35 to 40 feet.		
2 yr. beds 4-6 in.	3.00	25.00

PINUS STROBUS (White Pine)		
The White Pine is the largest of all coniferous trees in the eastern part of the United States. It readily adapts itself to both dry and moist soils, for it is found on the poorest and driest soil, and on steep, rocky slopes, and also on moist, richly loamy and river bottoms. It grows rapidly and has long, flexible needles, whitish beneath.		
3 yr. 6-8 in.	5.00	45.00
2 yr. 2-4 in.	3.00	25.00

PINUS THUMBERGII (Japanese Black Pine)		
Tree to 100 feet tall. Large winter buds silvery-white. A handsome picturesque tree.		
2 yr. 4-6 in.	3.00	25.00

Thuja, The Arborvitae		
THUJA OCCIDENTALIS (American Arborvitae)		
The American Arborvitae is the mother tree from which one of fifty distinct types have been developed. The native forests of Arborvitae have long been of great commercial value for timber, producing tall, straight trunks much used for telegraph poles. The Arborvitae is very hardy and does well in almost any situation. Stands trimmable well, and for this reason is widely used for hedge purposes. It usually grows bushy at the bottom and tapering toward the top. Foliage is very soft and flexible, red of fine deep green color.		
4 yr. trans. 8-10 in.	7.50	
3 yr. trans. 4-6 in.	6.00	50.00
2 yr. 2-4 in.	2.50	20.00
1 yr.	2.00	15.00

THUJA ORIENTALIS (Oriental Arborvitae)		
A comparatively low, broadly pyramidal tree, native of Asia. Its color is a refreshing yellowish green similar to Norway Spruce, although dulling to bronzy green in winter. Very rapid grower.		
3 yr. trans. 12-18 in. heavy	12.00	100.00
3 yr. trans. 8-12 in.	6.00	50.00

1 yr. beds 4-6 in.	2.00	15.00

Ulex		
ULEX EUROPAEUS (Common Gorse)		
Ornamental evergreen plant. Grown for their handsome yellow flowers. Has dark green shiny branches. Valuable for covering dry sandy banks, also well suited for roadside planting.		
1 yr. 4-6 in.	2.50	
1 yr. 6-8 in.	2.50	

Ulmus		
ULMUS PUMILA (Chinese Elm)		
Most valuable fast growing tree ever introduced.		
1 yr. 12-18 in.	4.50	40.00
1 yr. 6-12 in.	3.50	30.00

SHRUBS AND TREES		
ACER PALMATUM (Japanese Maple)		
This species and Acer Japonicum are known as Japanese maples. They are extremely handsome shrubs of dense though graceful habit, and with elegant foliage, beautiful especially in spring for its delicate shades of green and red, and again in autumn when the leaves assume the most striking tints. Largely used for gridding stock for the many Japanese varieties.		
2 yr. beds 6-8 in.	7.50	65.00
2 yr. beds 4-6 in.	6.00	50.00
1 yr. 3-4 in.	3.50	30.00

AUCUBA JAPONICA (Gold Dust) (Japanese Aucuba)		
Very effective with gray-green foliage and deep blue flowers. Like fern. June-September.		
2 yr. trans. field, 2-3 ft.	5.00	40.00

COMUS FLORIDA (White Dogwood)		
2 yr. 12-18 in.	12.00	100.00
1 yr. 6-12 in.	7.00	65.00
1 yr. 4-6 in.	5.00	40.00

CRATAEGUS PYRACANTHA COCCINEA		
A beautiful sub-variety of evergreen burning bush. Very effective and desirable. In early spring the plant is covered with a profusion of white flowers, which are followed by bright orange berries, these being retained during the entire winter.		
2 yr. 4-6 in.	3.00	22.50
2 yr. 6-8 in.	6.00	35.00

CRATAEGUS PYRACANTHA CRENULATA		
2 yr. beds 6-12 in.	100	1000
	20.00	

CRATAEGUS PYRACANTHA LALANDI		
Sometime called "Burning Bush." An evergreen shrub of spreading habit; foliage a rich dark glossy green; clusters of white flowers in the spring are followed by a wealth of orange-colored berries, which remain on the plant all winter.		
2 yr. beds 4-6 in.	4.50	37.50
2 yr. beds 6-8 in.	6.00	50.00

CYDONIA JAPONICA (Flowering Quince)		
2 yr. beds 6-12 in.	10.00	
DESMODIUM BICOLOR (Lespedeza)		
2 yr. 8-12 in.	4.00	35.00
DESMODIUM FORMOSA ALBA (Lespedeza)		
2 yr. 8-12 in.	4.00	35.00
MAHONIA AQUIFOLIUM (Oregon Hollyhedge)		
2 yr. 2-4 in.	5.00	40.00

PHOTINIA SERRULATA (Low Photinia)		
A shrub with large shining foliage which frequently colors crimson and bronze in winter. While flowering produced in large trusses followed by red berries. In spring the young growths are a delicate shade of light green which in contrast with the darker foliage, gives a very beautiful effect. Ultimate height 5 to 12 feet. Prefers well drained, fertile soil and some sun, although does well in shade. A very valuable and scarce plant. Do not fail to add this fine plant to your collection.		
2 yr. beds 6-8 in.	7.00	60.00
2 yr. beds 4-6 in.	0.00	50.00
2 yr. beds 2-4 in.	4.50	40.00
1 yr.	3.50	35.00

PHOTINIA VILLOSA		
Of varying height but normally medium, liberally with early corymbs of white flowers in June. This foliage is gorgeously red in the fall; and the bird-proof fruit clusters carry the same scarlet gleam half through winter.		
2 yr. beds 6-8 in.	3.50	30.00
2 yr. beds 8-10 in.	6.00	40.00

SYRINGA VULGARIS ALBA		
The old fashioned White Lilac, blooming in early spring; very fragrant.		
2 yr. beds 4-6 in.	6.00	40.00
SYRINGA VULGARIS		
2 yr. 4-6 in.	5.00	40.00
2 yr. 2-4 in.	4.00	30.00

TAXODIUM DISTICHUM (Common Bald Cypress)		
A tall pyramidal tree; grown for their graceful feathery foliage which is light green in color.		
2 yr. 12-18 in.	8.00	75.00
2 yr. 8-12 in.	7.00	60.00

YUCCA		
1 yr.	3.50	30.00

REGALE LILY		
LILIUM REGALE (Regale Lily)		
One of the most beautiful of all known lilies. The exquisite blending of blue and white forming a charming contrast with the rich, deep green foliage. Highly recommended for general culture, both for pot and the open ground. Strong growing and permanent at far north as Boston. (Bailey)		
"L. Regale came to us from China. With its large flowers, while overlaid with pink and with a yellow throat, it is one of the most stately of all. Treated like L. Speciosum rubrum of L. Aurum, it appears to be as hardy as either and a most welcome addition to what we already have. It can be grown and flowered in pots."		
2 yr. bulbs trans.	12.50	100.00

**Hardy Blue Ridge Mountain Plants**

Collected Near My Nursery in Western North Carolina. Shipping Point, Hominy, N. C.

Kalmia Latifolia		
5 to 12 in. collected	\$14.00	\$125.00

Prices gladly quoted on anything wanted not listed.

Portland, Ore.		
March 16, 1928.		
Mr. Robert C. Young, Greensboro, N. C.		
Dear Sir:		
Your shipment to hand, and upon unpacking, we find them to be in first-class condition. We are quite pleased with them, as we did not think they could stand the distance of transportation as well as they did.		

**NOTICE TO CUSTOMERS**

I would say to those unacquainted with me that I was born and grew up in nursery work on my father's nursery and have been engaged in the nursery business all my life. After spending eight years in northern nurseries, I returned south and devoted my time and small capital to growing boxwood and evergreens, today I have millions of evergreens growing in one of the largest evergreen producing plants in the south.

Located in the Piedmont section of the State we have severe cold weather, but there is very seldom a week from September to May in which we can not dig and ship. You get your stock from me when you want it and when you want it for results. I do not pack my stock in a cold storage or put it in a greenhouse to ship out during the winter months and early spring.

I dig your order right out of the ground where it is growing, puddle the roots at once, also puddle again before packing, wrap the roots in damp moss and over this wrap wax paper.

My packing is done in a cool damp cellar and I absolutely guarantee my stock to reach you in perfectly healthy condition.

I personally look after digging and packing each and every order. When you buy of me you get real service and good stock treated in the proper way.

A trial will convince you.

**REFERENCE**

As to my responsibility, I refer to any bank or business house in Greensboro, N. C., the commercial agencies and the leading nurserymen of the U. S.
